Local Exchange Carriers by States

This section lists every city and town in the United States having a telephone exchange of commercial size.

In this compilation, the listing is arranged by state and then alphabetically by community where the headquarters and exchanges are located, or in which they operate.

A numeric code (see below) preceding the exchange name indicates the size of the company by total number of access lines. This is followed by statistical data relating to that exchange in parenthesis (if served by the company), and the name, address and telephone number of that company or its operating headquarters. If the operating headquarters is in another city or state, a reference is given. A reference is also provided to the company's operating group affiliation or other association by ownership or management. For additional information, see the Operating HQ or affiliate listing in the Telecom Holding Companies Section.

The listing continues with exchanges served, key personnel, and line data. Various plant data includes: Sheath miles of aerial cable, underground cable (in duct), and buried cable; Conductor (pair) miles of wire for open wire, wire within aerial cable, underground (in duct), and direct buried; Coaxial cable miles; Pole line miles; Underground conduit in trench and duct miles; Toll, exchange and station carrier by number of channels and route miles; Number of microwave "hops" and channel miles.

Also shown is the purchasing responsibility and financial statistics, such as annual operating revenues, total plant investment, and construction budgets for '86, '87, '88. If furnished, REA borrowers are so identified.

An alphabetical list of companies at the end of each state gives the main exchange city under which headquarters information is shown for a company. We have attempted, as much as possible, to list companies in the states in which they operate, although in some instances, multiple state operations prevent uniformity.

1—Over 100,000 Access Lines
2—75,000 to 99,999 Access Lines
3—50,000 to 74,999 Access Lines
4—30,000 to 49,999 Access Lines
5—20,000 to 29,999 Access Lines
6—10,000 to 19,999 Access Lines
7— 7,500 to 9,999 Access Lines
8— 5,000 to 7,499 Access Lines
9— 2,500 to 4,999 Access Lines
10— 1,000 to 2,499 Access Lines
11— 750 to 999 Access Lines
12— 500 to 749 Access Lines
13—Less than 499 Access Lines

Figures following name of town or city indicate number of access lines at that place only.

AL —Access Lines
ES —Electronic
CDO—Community Dial Office
ADO—Attended Dial Office
TC —Toll Center
SXS—Step-by-Step
XB —Crossbar
ESS—Electronic Switching System
DIG—Digital

Customer Premise Equipment —Service & Supplies

This section contains CPE companies—firms that sell or lease telephone terminal equipment for interconnection to telephone company lines—listed alphabetically by city within each state. Canada, Puerto Rico and Virgin Islands companies that supplied information are listed at the end of the section.

The following information was requested from each company: mailing address, telephone/telex number, company president, sales manager, number of employees, number of service personnel, sell/service data comm equipment and brands of PBXs and key systems handled. Parent Co. and its location is also listed where applicable.

The code (in parentheses) preceding the company name indicates type of company or affiliation. See below.
